SATURDAY, 25 APRIL 1981

Xanadu™ Hypertext Conference
The Sixth Semi-Annual

With the completion of the Xanadu™ Data Engine, holding all things as integrated packages offering linkages, historical backtrack, alternative versions and windowing, a new era in the handling of information, the sharing of ideas — could begin.

But first, the Rebel forces had to meet and coordinate . . .

THE PROGRAM

GENERAL SESSION. Introduction to the Xanadu™ Hypertext System: storage, editing and publication of linked text and graphics.

PARALLEL SESSION: Biznotechnics; design of Xanadu FREND™ Front-End Programs (for software vendors and authors); a Xanadu box for Ethernet™? Franchising the Silverstands™.

PLENARY SESSION: "Babes in Hyper-Toylan" by Guest of Honor **Alan Kay.**
